Re: Washington Beef LLC, NPDES Permit No. WA-005020-2 Application for Renewal

Dear Mr. Lidgard:

Enclosed is the Washington Beef LLC application for renewal of NPDES Permit No. WA-005020-2. This renewal application is provided in accordance with 40 C.F.R. § 122.21(d) and General Provision V.B. of the current permit referenced above.

Please note that the renewal application includes a request that the current permit configuration and options as to use of both Outfall 002 and Outfall 008 be retained in the renewal permit.

Current permit condition I.C. requires receiving water monitoring and reporting of results with this application for renewal. The receiving water monitoring for the period February 1, 2012 through July 01, 2014 is included with the renewal application as an Excel spreadsheet on the enclosed CD and in hardcopy pursuant to current permit condition I.C.4. Also pursuant to current permit condition I.C.4, an addendum to this renewal application with monitoring results for the period July 02, 2014 through January 31, 2015 will be provided by May 1, 2015.

We look forward to working with you and your group in this permit renewal. Please do not hesitate to contact me with any questions or items you may have for discussion.

Regards,

Brad McDowell
President
